

PROFESSIONAL SUMMARY

Seasoned Strategic Solutions Engineer with extensive

EXPERIENCE

2026-03-04 -

Principal Solutions Architect

2017-01-01 - 2020-01-01

Ease Inc.

Aliso Viejo, CA

Spearheaded complex data center sales opportunities, aligning technical solutions with client business strategies. Authored and negotiated high-value SaaS contracts, managing submission for legal review and approval. Built and maintained strong relationships with key decision-makers, facilitating seamless project execution. Trained sales teams on advanced product offerings and technological trends.

VP of Sales & Systems Engineering

2020-01-01 -

Adroit Worldwide Media (AWM Inc.)

Aliso Viejo, CA

Conducted product demos, assessing and documenting prospect environments, and validating technical solutions. Managed pre-sales trial setups, ensuring smooth onboarding and support for clients. Recommended hardware and software tailored to client environments, enhancing business value. Developed compelling proposals and presentations, effectively communicating solution benefits to high-profile clients such as Kroger, Wal-Mart, and Albertsons. Facilitated seamless project handoffs to the onboarding team, ensuring alignment with client requirements. Acted as a liaison between sales, onboarding, and support teams to streamline processes and enhance customer satisfaction. Participated in technical training and conducted in-person and virtual demonstrations at tradeshow, conferences, and other events.

Principal Windows and Azure Cloud Sales Architect

2006-01-01 - 2015-01-01

Microsoft Corporation

Redmond, WA

Led technical sales teams, driving product sales and providing world-class support. Architected enterprise design solutions encompassing data protection, System Center, Windows technologies, and deployment/security processes. Served as Microsoft Azure USA Field Technical Lead, developing training for 25,000 Microsoft Premier and Sales Engineers. Provided thought leadership and technical expertise on cloud computing and data protection solutions.

Principal Sales Architect

2017-01-01 - 2020-01-01

Ease Inc.

Aliso Viejo, CA

Led pre-sales technical activities, offering expertise in data protection and security solutions. Designed and presented solution architectures, addressing client requirements with detailed configurations and bills of materials. Served as a technical liaison between clients, sales teams, and professional services, ensuring smooth rollouts and high client satisfaction. Managed POC evaluations, ensuring successful technical validation of solutions. Provided insights and feedback to product and engineering teams to enhance product capabilities.

Managing Solutions Architect & Principal Presales Engineer

2015-01-01 - 2017-01-01

Led a team of solutions architects in designing and delivering complex IT infrastructure solutions with a focus on data security. Acted as a senior technical advisor, facilitating cross-functional collaboration and driving successful project outcomes. Ensured compliance with industry regulations and alignment with customer requirements. Supported technical evaluations and POCs, guiding clients through the validation process.
